

### How to measure your finger?

You can always use a measuring tape, or if you do not have your own, feel free to print this page on A4 and use the Silver Path measuring tape. But do not forget to uncheck the "Scale to fit" option in the print dialogue box.

1. Take a measuring tape or cut a Silver Path measuring tape
2. Wrap a tape around the finger on which you want to wear a ring. It has to fit comfortable, make sure that it is not too tight.
3. Mark the point on the paper where it overlaps forming a circle and measure the length of the paper from the starting point to the mark.
4. To determine your ring size, check the measurements that you have made and check the **Ring Size Chart**
5. If you are hesitating between two sizes, choose the larger one.
